

Support

“I would like to commend **Atlantic Tractor** on **outstanding support** since the purchase of our John Deere 9520 tractors and 1810E pull pans. Support to fix any minor problems encountered was **quick and handled to our satisfaction**. Follow-up on the equipment has been an ongoing process by both Gary and Jed since arrival, which has been truly appreciated. The tractors and pull pans have performed as promised and with the help of Jed our maintenance program has been able to adapt to this new equipment. **It is a pleasure to work with and be associated with professionals of this caliber.**”

Walter L. Webb
